

Product Data Sheet

E-Series Pioneer Structural Firefighting Jacket

The TenCate Pioneer E-Series Structural Jacket is designed to offer solid thermal performance and long wear life. The trouser and jacket are designed to offer generous overlap to prevent thermal gaps.

Features

- “Y” style jacket design to provide ease of mobility and minimum jacket rise
- Articulated sleeves for greater movement
- Coat hanging loop for drying
- Contoured collar designed for maximum thermal protection
- Thermal throat tab with hook + loop closure
- Two large gusseted pockets with hook + loop flap and drain holes
- Heavy-duty zipper with 50mm hook + loop closure system on outside storm flap for extra heat and moisture protection
- Sleeves feature knitted Nomex wristers for added protection
- Reflective trim - 50mm yellow/silver firetrim
- Padded and reinforced shoulders and elbows.

Materials

- Outer Shell: TenCate Pioneer
- Thermal Liner: T Gard III Plus

Certifications and Standards

These garments are certified by BSI to AS 4967:2019 (AMDT 1-2010) Protective clothing for firefighters. Requirements and test methods for protective clothing used for structural firefighting.
