

Glove Sizing Guide

Check your glove size

Place your right hand palm down on the drawing with your fingers together. Your index finger should be aligned with the red line (but not over it). Your knuckles should be aligned with the top black line as indicated. Size is indicated by the width of your hand. Read your size on the coloured bars.

Instructions for use:
To be printed on A4 (100%)

Welding Gloves

All Elliotts welding gloves come as a large size and can be worn over a cotton inner if required.

Technical + Nitrile Gloves

All Elliotts technical and nitrile gloves are made to be worn as a snug fit for better dexterity.

Technical and nitrile gloves come in a range of sizes to ensure that you have the best fit.

Heat Contact Gloves

Come standard as a large mitt or as an x-large cover mitt which can be worn over a welding glove as replacement for a glove saver.

Rigger + Work Gloves

Rigger and work gloves are made highly durable for tough conditions.

These gloves allow some breathing space and are available in multiple sizes.
