

Product Data Sheet

G-Flex® AirTouch Cut-D IMPACT Cut Resistant Gloves

The new G-Flex® AirTouch Cut-D IMPACT is a quality cut-resistant glove that you know, now with added K-Guard® TPR Exoskeleton Armour for top-of-hand impact protection.

The CR-D has great touchscreen performance and a reinforced thumb crutch for increased durability. These gloves offer excellent dexterity, sensitivity, and tactility, and are certified to the AS/NZS 2161.3:2020 standards.

Features

- Dynamax® 15D 15-gauge seamless blue liner
- TDM Cut Level D protection
- K-Guard TPR (Thermal Plastic Rubber) back of hand exoskeleton, designed to absorb and dissipate impact to the back of the hand, knuckles and fingers
- Reinforced thumb crutch for improved durability
- Instant Touchscreen Capabilities
- 'Finger Dip' technology provides ventilation to back of hand
- Provides the highest levels of abrasion and tear resistance
- Extremely comfortable with excellent dexterity, sensitivity, and tactility
- Oeko-Tex® tested materials
- Environmentally friendly packaging (no single use plastic bags)
- Length: 250mm (size 9).

Materials

- Dynamax 15D 15-gauge liner
- Elasticated cuff
- AirTouch micro-foam coating
